<b>Thursday, 1/19</b>	Boys Basketball vs. Accomset	4:15 pm	Accompset	

**\*\*ATTENTION All 9th, 10th and 11th grade parents and students!\*\***

Please check out the **"Family Connection by Naviance"** tab on the WMHS, Murphy and Gelinas website. This website allows students and families to investigate, research, track and plan for the college admission process.

*Naviance provides a range of services for students, parents, and college counselors. Users can:*

- view individualized displays of their personal academic information and test scores
- send and receive e-mail from the college Office and get automatic e-mail reminders about colleges visiting University Prep
- search for colleges and start a list of potential schools to explore more in depth

**Colleges**

**My Colleges:** Students, parents, and the college counselors can create both prospective college lists ("colleges I'm thinking about") as well as an active list of college applications ("colleges I'm applying to").

**College Research:** Here students and parents can conduct extensive college searches. Start broadly by limiting your preferences to a few important factors (size, location, selectivity, major, athletic interest). Later, you can specify more; the pickier you get, the fewer the matches. You can also visit the **Scattergrams**, where you can see charts that show how recent U Prep students have fared when applying to specific colleges. Under **Enrichment Programs**, you can see a variety of different summer and school year programs to enrich your co-curricular and academic studies.

**Scholarships & Money:** Students and parents can search for local scholarships, view scholarship applications, and conduct national scholarship searches.

**Careers**

**Explore Careers:** Students can search for information on various careers and related fields to help identify potential majors in colleges.

**What Are My Interests?** Students can take personality quizzes to learn more about their learning style, or use the Career Interest Profiler, a tool that can help you discover the types of work activities and careers that match your interests. The interest profiler has 180 questions about work activities that people do at their jobs.
