

## AP Calculus BC

Mrs. Dillon  
2019-2020

**Text Book:** *Calculus*  
Anton ◦ Bivens 11<sup>th</sup> edition

**Calculator:** Ti Graphing Calculator

This is a rigorous, college-level course that will cover topics such as integration and its applications, parametric equations, polar functions, and series. Students are expected to take the AP Exam in May 2020. This course also has a final exam which will be given in June 2020.

**Exams:** There will be 4 exams each quarter. Each exam will be 20% of your quarter grade. Exams may or may not require the use of a graphing calculator. Grades will be posted on the portal in a timely manner. If you are absent on an exam day, it is your responsibility to schedule a make-up exam. The fourth exam of every quarter will be a cumulative exam. Cheating or cutting the day of an exam is not acceptable and will be handled according to the student handbook.

**Quizzes:** Throughout each quarter, sample AP questions will be assigned and graded as a quiz grade. There will be a penalty for AP questions that are late. This grade will not be posted on the portal until the end of each quarter. If a quiz is given during class time, it will be announced and posted in a timely manner.

**Homework:** Homework will be assigned every night. At times, homework will be checked. Missed homework CANNOT be made up for credit. Each student starts with a homework grade of 100. Five points will be deducted for each missing assignment.

**Grading Policy:** Exams: 80%      Quizzes: 10%      Homework: 10%

**Extra Help:** The days and time of extra help will be announced in class.

**\*\*Cell phones should not be used during class time!!**

**Final Course Grade:** Quarter 1: 4 22% each      Final exam in June: 12%
