

# SIGMACAMP 2023

📍 Silver Lake Conference Center, CT: August 13-20 

**Apply Now! Applications due April 15**

Fascinated by math and science? Join other students and leading experts from top universities to discover more about the world around you!

Share your passions, make new friendships, develop new interests, and be inspired during an unforgettable week!  
**We conduct need-blind admissions and offer financial aid.**

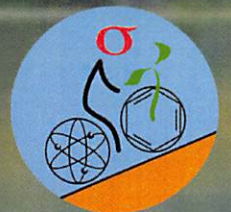

Our staff of students and professors from universities such as **Harvard, MIT, and Stony Brook** come together to create an exciting and diverse STEM and arts program including **lectures, experiment-intensive courses, and workshops** in math, physics, biology, chemistry, computer science, and engineering.

**"The opportunities to explore different scientific fields and technologies are unrivaled."**  
- 2022 Parent

**"I will definitely come back next year because I strengthen and make new friendships. I love talking to the counselors and faculty about what they do outside of camp to get an idea of what I want to study and do when I'm older. I love being around people who enjoy STEM just like I do!"**

- 2022 Camper
