

**Ward Melville Varsity Softball
3rd Annual Charity Game
Julia Scourakis Day**

April 22, 2023 @ Ward Melville HS 9:00 AM

Join the Ward Melville Varsity Softball team as they play to honor Julia Scourakis and all children who have been diagnosed with rare physical disabilities. Julia was born with Escobar Syndrome, a rare disease that only 70 children worldwide have been diagnosed with. Julia is the only documented child in the world with her genetic sequencing of this disease. To date Julia has had over (14) surgeries to help her walk and correct contractures in her limbs. Although there is no current cure for this disease, you can help us raise awareness and raise money for a great cause. All proceeds raised will be donated to the Fresh Air Home in Southampton, NY. This is one of Julia's favorite places. It is a camp for children with disabilities.
